Message from the Senior Associate Dean for Research

Dear All,

After the semester, I want to emphasize the importance of taking time to rest and recharge. We have all worked hard to support our students and research ecosystem, and now it's crucial to focus on our total well-being. Taking time to help us maintain physical, mental, and emotional health is key for all of us. Use any strategy for regaining energy, clearing your mind, and prioritizing rest. Taking care of ourselves is also to set a positive example for those around us; especially as many of us are 12-month employees. As we head into the summer period, I urge you to engage in some activities that

bring you joy and relaxation. Whether it's spending time with loved ones, exploring new hobbies, or simply taking a moment to unwind and reflect, make self-care a priority during your time off.

Thank you for your hard work and dedication. Warm regards, AΗ

Adnan Hyder, MD MPH PhD

Professor of Global Health

National Institutes of Health

Office of Research on Women's Health

The NIH-Wide Strategic Plan for Research on the Health of Women 2024-2028 is now available. The plan outlines strategic goals to guide and inform the National Institutes of Health (NIH)'s-supported research on the health of women. The Office of Research on Women's Health (ORWH) employed a data-driven, iterative process to develop this strategic plan, while gathering information from many sources, contributors, and activities during the past several years. Learn more here.

Funding Opportunities The Office of the Vice Provost for Research (OVPR) -**University Seminar Series**

All-Expenses-Paid Program for Inclusion and Diversity Among Individuals Engaged in Health- Related Research (PRIDE) Washington University School of Medicine offers an all-expense paid summer institute program to increase diversity in cardiovascular disease comorbidities, genetics, epidemiology, implementation science, global health, data science / bioinformatics. The PRIDE CVD-CGE program is open to junior faculty and transitioning postdoctoral scientists from diverse backgrounds, including those from groups that are underrepresented in

the biomedical sciences (see e.g., NOT-OD-20-031), to further develop their research skills and knowledge to become competitive NIH grants applicants and scientists in heart, lung, blood, and sleep (HLBS) research. Learn more and apply for to join the summer 2024 cohort <u>here</u>. See <u>the flier here</u>.

FY25 Intramural Funding Opportunities

Each year the Office of the Vice Provost for Research sponsors intramural funding programs that support new scholarly projects. Eligibility requirements will remain the same as prior years, so we encourage scholars to start thinking about fundable

materials with your faculty. The Call for Proposals (AY25) and application portal details can be found here. Deadline is **Thursday**, **June 27**, **2024**, **at 1:00 PM**.

шин **CONGRESSIONALLY DIRECTED** MEDICAL RESEARCH PROGRAMS **Funding Opportunities: Transforming Health Care through Innovative and Impactful Research** The Congressionally Directed Medical Research Programs (CDMRP) fills research

gaps by funding high impact, high risk and high gain projects that other agencies may not venture to fund. The CDMRP has a number of FY2024 program funding opportunities in research areas such as breast cancer, ALS, and hearing restoration. For a complete list and details about each opportunity, visit their website

Conversations on Cancer: 4th Annual National Black Family

Cancer Awareness Week

Thursday, June 13, 2:30 - 4pm, Webinar

It's time for the "4th Annual National Black Family Cancer Awareness Week, Engaging the Generations" Conversation on Cancer public panel discussion. The June 13, 2024, online discussion, beginning at 2:30pm ET, is the lead event preceding the annual weeklong social media campaign. Under project Community, FDA's Oncology Center of Excellence is encouraging a wide array of public and private, community-focused engagement entities, organizations, and families

ADMINISTRATION

Tuesday, June 25, 3 - 4pm, Webinar Academic and medical laboratories consume 5-10 times more energy than typical office spaces plus large amounts of water, chemicals, and materials. This session will feature experts on sustainable science and green labs in academic medicine discussing the opportunities to reduce energy usage and waste, promote recycling of lab materials, and foster innovation in laboratory processes. Learn more and register <u>here</u>. **NCTR Education and Training Programs** NCTR provides opportunities for undergraduate and graduate students, postgraduate scientists, scientists from other countries, college/university faculty members, and

others to obtain hands-on laboratory experience by working with experienced scientific researchers. These training opportunities are available in the following areas:

> Faculty Research Program (NCTR) Foreign National Training Program (NCTR) **Graduate Certificate in Regulatory Science (NCTR)** Interdisciplinary Toxicology Program (NCTR)

SMHS Protocol Builder: Writing a Clinical Research Study **Protocol** GW provides free access to investigators for Protocol Builder that speeds the development of research protocols that comply with IRB and regulatory standards. GW recommends investigators consider using Protocol Builder for projects that involve greater than minimal risk. Don't forget to consult on biostatistical methods or study design at the <u>GW Biostatistical and Epidemiology Consulting Service</u>. Read more about the protocol builder <u>here</u>.

GW Institute for Food Safety and Nutrition Security - World Food Safety Day 2024

World Food Safety Day 2024 Thursday, June 6th, 1:00 - 6:30pm Sessions will cover the importance of integrating food safety and nutrition security, preparing for emerging pathogens like avian influenza, and lessons learned from food safety events like cronobacter in baby formula, lead in applesauce, PFAS in food contact surfaces and more! The event will end with a panel discussion with Jim Jones, FDA Deputy Commissioner for Human Foods and Sandra Eskin, USDA

Deputy Under Secretary of Food Safety that will be moderated by Lynn Goldman, Dean of GW Milken Institute School of Public Health. The event is free and you can

The George Washington University Milken Institute School of Public Health Public Health

Taught Online From Monday through Friday on June 3-7 and June 10-14 Unleash your potential, network with international professionals, and shape a healthier tomorrow! Learn from leaders at the forefront of public health research and practice who will cover essential public health topics and cutting-edge approaches. Leave empowered to contribute to the global public health landscape, refine your analytical skills, and broaden your understanding of pressing health challenges. **Taught courses include:** Responsible Conduct of Research, Understanding Commercial Determinants of Health, Ethics in Public Health Practice and Policy, Preparation and Response to Epidemic, Pandemic, Mass Health Emergencies

2024 HPSR Societal Awards. Nominations are invited for three types of awards to be submitted: • The HPSR Lifetime Service Award: Presented to an individual or organization in recognition of extraordinary lifetime achievement in the field of health policy and systems research. The Sam Adjei Distinguished Public Service Award: Presented to an individual who demonstrates leadership in evidence-based policy formulation for health systems strengthening. • Young Professional Award: Presented to an individual involved for their outstanding *promotion* of HPSR knowledge generation and use or advocacy of

Pod 2 Notification Are you planning on submitting a proposal for funding consideration from an outside sponsor (e.g., NIH, DOD, RWJ,

As soon as you identify the funder and funding mechanism, contact Pod 2 by submitting an "intent to submit" form.

A sponsored research administrator (SRA) from Pod 2 will be assigned and will reach to you to set up a kickoff meeting to go over logistics, establish timeline deadlines, and gather more information about the proposed project.

OVPR - University Seminar Series - June 27 Continuous Deadlines American Institute of Indian Studies 2024 Fellowship Competition Antiviral Program for Pandemics (APP) Congressionally Directed Medical Research Programs (CDMRP) Doctoral Professional Development Award (DPDA)

Currently, we are accepting applications for <u>University Seminar Series</u> (AY2024-25). We are particularly interested in proposals that address: • Cross-disciplinary themes that bridge the gap between traditional research silos. • Collaboration with external experts from distinguished institutions or relevant industry sectors. • Demonstrable outcomes such as publications, grant proposals, or contributions to public policy. The program offers a valuable opportunity for faculty to explore new research avenues, build collaborations, and contribute to meaningful dialogues around crucial topics. We encourage you to share the program information and application

projects as soon as possible. **GW Postdoctoral Primary Care Research Training Program** OVPR Limited Submissions and Intramural Funding Competitions

funded research by adding training staff, expanding the scope of work to include additional topic areas connected to existing research, or focusing on areas of interest for the agency. American Institute of Indian Studies 2024 Fellowship

Competition

The American Institute of Indian Studies (AIIS) invites applications from scholars from all disciplines who wish to conduct their research in India. Junior fellowships are given to doctoral candidates at universities in the U.S. to conduct research for their dissertations in India for up to eleven months. Senior long-term (6-9 months) and short-term (4 months or less) fellowships are available for scholars who hold a PhD. Application information can be found here. Application deadline is **November** 15, 2024.

NIH: David E. Barmes Global Health Lecture 2024 Ruth Kirchstein Auditorium, Natcher Conference Center (Bldg. 45), National Institutes of Health (NIH), Bethesda, Maryland

NIDCR and the NIH Fogarty International Center (FIC) present the *David E. Barmes* Global Health Lecture 2024: Global HIV/AIDS Response: Then, Now, Future. The keynote speaker is Ambassador Dr. John Nkengasong, Senior Bureau Official for Global Health Security and Diplomacy, in which role he oversees the U.S. President's Emergency Plan for AIDS Relief (PEPFAR). Learn more about the event. Register to attend in person here or attend virtually.

Reaching the Peak: A Science & Technology Early Career

Summit

REACHING THE PEAK:

A SCIENCE & TECHNOLOGY EARLY CAREER SUMMIT

JUNE 2024

ectures & Events

month of June on June 5, June 12, June 18, and June 26. It will provide early career researchers with the opportunity to explore an array of career paths, network with fellow researchers, participate in professional development workshops, and engage in meaningful discussions around issues critical to the success of the R&D ecosystem. There is no charge for attendance. Learn more and register here.

The fourth annual Research! America summit for early career researchers will feature a series of events designed to engage these researchers and equip them with tools for success. This 4-session series will take place weekly through the

throughout the US and the diaspora to join this Conversation on Cancer discussion. There's no charge. It's open to the public upon registration. Learn more or register **AAMC: Climate Action and Sustainability in Academic Medicine: Sustainable Science and Green Labs**

Research Resources

NIH e-Protocol Writing Tool The <u>electronic protocol writing tool</u> aims to facilitate the development of two types of clinical trials involving human participants. The first type of trials are Phase 2 and 3 clinical trial protocols that require a Food and Drug Administration (FDA) Investigational New Drug (IND) or Investigational Device Exemption (IDE)

while catalyzing research productivity. It is responsible for research coordination, compliance with applicable regulations and institutional policies, research integrity and training, research communication, contracting and enhancement, and providing excellent service to advance research and discovery by faculty, students, staff, and individuals affiliated to GWSPH.
