

# Research Brief

## *Message from the Senior Associate Dean for Research*

Dear Colleagues,

Happy November! I hope you have all had a restful Fall break and spooktacular Halloween weekend.

It was a pleasure seeing many of my amazing public health colleagues and presenting the research update at the staff and faculty assemblies last week. I want to thank and recognize our PI's for their work and our research staff for handling over \$350M across over 650 awards. I am so proud of our growth and excited to see what comes next!

Please note that while the ORE site is under construction, you should send all queries or submissions to [gwsphresearch@gwu.edu](mailto:gwsphresearch@gwu.edu).

With excitement for the month to come,

AH

*Adnan Hyder, MD MPH PhD*

*Senior Associate Dean for Research*

*Professor of Global Health*

*Milken Institute School of Public Health*

## Join the ORE for a **BIG** Webinar!

On November 8, 2022, the ORE along with the Bioethics Interest Group will be hosting an 'Ethics and Monkeypox' webinar. Tune in and hear from guest panelists Tara Palmore, MD and Michael Ulrich, JD, MPH. The webinar will be moderated by the OREs own Paul Ndebele, PhD. Please note that for security reasons, you must have your first and last name visible on Zoom to gain access. See flier [here](#) for more information.

**BIG** Bioethics Interest Group  
OFFICE OF RESEARCH EXCELLENCE

**A Webinar Series: Ethics and Public Health**

Please join us to discuss:  
**'Ethics and Monkeypox'**  
Tue, Nov 8, 2022 | 12:00pm EDT  
Zoom: <https://bit.ly/3ssBpaH>  
Password: BIGEPH22

For security purposes, your first and last name must be visible in Zoom to gain access. The meeting will be locked at 12:00pm EDT.

**For any questions, please email [gwsphbig@gwu.edu](mailto:gwsphbig@gwu.edu).**  
For individuals who need assistance, including closed captioning, please email 24 hours in advance.

**Guest Panelists:**  
**Tara Palmore, MD**  
Professor of Medicine, Division of Infectious Diseases, George Washington University (GW) Medical Faculty Associates and GW School of Medicine and Health Sciences.  
**Michael Ulrich, JD, MPH**  
Assistant Professor, Center for Health Law, Ethics and Human Rights, Boston University School of Public Health.

**Moderator:**  
**Paul Ndebele, PhD**  
Assistant Director, Office of Research Excellence and Professorial Lecturer, Department of Global Health, Milken Institute School of Public Health, GWU.

[This webinar is co-sponsored by the following grants at GWSPH: US-Mal Research Ethics Training Program (R22TW011508) & Strengthening Ethical Capacity in D.R. Congo (G11TW011542), both supported by the National Institutes of Health, USA]

**GW** Public Health  
The George Washington University  
Milken Institute School of Public Health  
950 New Hampshire Ave., NW, Washington, DC 20052  
Tel: 202-994-7400 | Web: <https://publichealth.gwu.edu>

### Registration is Open!

Where: New Orleans, LA

When: March 27-29, 2023

The Association for Prevention Teaching and Research will be holding its Leadership for Health Equity in March 2023. Attendees will have the opportunity to connect with a diverse group of health professionals to focus on the knowledge, skills, collaborations, and resources needed to teach, practice and promote population health.

\*Registration closes 03/23/2023

## Funding Opportunities

### Frontiers Call for Manuscripts

Deadlines:

**Abstract Submission Deadline 14 January 2023**

**Manuscript Submission Deadline 14 March 2023**

Are you interested in research that involves public health education and practice? Frontiers in Public Health is searching for manuscripts that aim to address the current issues faced by principal investigators, lab managers, and student supervisors who educate and train new/early-stage researchers within the field of public health. Contributions will be accepted in the form of original research, review, mini review, case report, hypothesis and theory, perspective, and experimental studies that cover, but are not limited to, the following themes relating to public health education:

- Identifying and interpreting data
- Planning and advocating for policies and programs
- Leadership and systems thinking
- Communication and relationship-building with communities & cultural competency

For more information, including how to submit and requirements, click [here](#).

## Sanofi Request for Proposals: Contribute to Hemophilia Research

Due Dates: November 3, 7, 10, 11, 2022

## Pod Spotlight

---

### Meet Our Pod Team

#### Meet our Pod 2 Team Member of the Week: **Begai Johnson**

*Begai Johnson joined The George Washington University (GW) in 2006 as a Research Administrator in the Office of Sponsored Projects (OSP). At that time, she was responsible for what is termed “Cradle to Grave” research administration (pre- and post-award responsibilities) and then transitioned to be solely dedicated to post-award administration for the next 10 years. In August 2020, during GW’s reorganization of research services, she joined Pod 2 as a Research Program Manager, and she primarily handles post-award activities. During her tenure here at GW, she has accumulated a vast amount of knowledge and experience in research administration. She is always enthusiastic to share what she knows and provides guidance to her team members in Pod 2, and departmental administrators in addition to research faculty on any number of research administration questions or issues. Begai is the prime point of contact in Pod 2 for running suspense and failed funds reports for dissemination. She provides training, and tool development, on how to do identify issues causing suspense and failed funds.*

*We are proud to have her as part of our team!*

## Research Resources

---

**Is There a Tool That Can Help Me Prepare My Biosketch in the NIH Format?**

The Science Experts Network Curriculum Vitae (**SciENCv**), which serves as an interagency system designed to create biosketches for multiple federal agencies, supports the NIH biosketch format. Within SciENCv, you can easily transform an existing biosketch from one format to another (e.g., old NIH format to new NIH format, NIH format to NSF format).
