Background
Minors have been established within the University to provide opportunities for formal interschool study. Students must be enrolled in a degree program and must be in good standing to be eligible to take a Minor in another school. The Minor Fields generally consist of 15-21 credits of prescribed courses, depending on the Field. Upon successful completion of all requirements, the title of Minor Field of Study and the courses taken in support of the Field are entered on the student’s transcript.

Minor in Nutrition
The Milken Institute School of Public Health (SPH) offers a Minor in Nutrition through the Department of Exercise and Nutrition Sciences. Students completing the minor in nutrition gain a deeper understanding of the science of nutrition. The Milken Institute SPH Minor in Nutrition consists of 15 credit hours. This Minor provides a strong foundation in nutrition across the lifespan, in sport and in public health. Requirements: 2.5 cumulative GPA or above.

To Add or Drop a Minor and to Change the Original Minor Program of Study
Please see the SPH Minor Program Advisor for information, admission to the minor, to drop the minor, for assistance in the selection of the elective course and to amend the courses on the original program of study. GW’s SPH will not process requests to add a Minor in Nutrition during the registration period. All transactions require the Application for Undergraduate Minor form and signatures.

I have studied the requirements for the minor and understand what I must do to meet them. Any changes to the proposed coursework must have written approval for the secondary field department. A copy of this approval must be submitted to the Milken Institute SPH Office of Student Records, 950 New Hampshire Ave, 2nd Floor.
