

Curriculum Vitae

JEFFREY B. BINGENHEIMER

1) Personal data

Office Address:

Department of Prevention and Community Health
Milken Institute School of Public Health
The George Washington University
950 New Hampshire Ave. NW, Suite 300
Washington, DC 20037
202-994-3610 (phone)
202-994-3601 (fax)
bartbing@gwu.edu

2) Education and Training

a) Undergraduate Education

1994 A.B., History (summa cum laude, high honors), Dartmouth College, Hanover, NH

b) Graduate/Medical Education

1999 M.P.H., Health Behavior and Health Education, University of Michigan School of Public Health, Ann Arbor, MI

2005 Ph.D., Health Behavior and Health Education, University of Michigan School of Public Health, Ann Arbor, MI

c) Post-Graduate Training

2005-7 Robert Wood Johnson Health and Society Scholar, Department of Society, Human Development, and Health, Harvard School of Public Health, Boston, MA

2007-9 Postdoctoral Fellow in Family Demography and Individual Development, Population Research Institute, Pennsylvania State University, State College, PA

d) Medical or Other Licensure

N/A

e) Medical Board or Other Certification

N/A

3) Professional Employment

- 2009-2015 Assistant Professor, Department of Prevention and Community Health, Milken Institute School of Public Health, the George Washington University
- 2015-present Associate Professor, Department of Prevention and Community Health, Milken Institute School of Public Health, the George Washington University

4) Honors and Awards

- 1993 Phi Beta Kappa
- 1999-2000 Angus Campbell Fellow, Survey Research Center, University of Michigan
- 1999-2002 Regents Fellow, University of Michigan
- 2004-2005 Founders Fellow, Institute for Social Research, University of Michigan
- 2010 Delta Omega

5) Grants Awarded or Pending

Principal Investigator. “Development and Pilot Testing of a Community Health Worker Social Norms Intervention to Promote Modern Contraceptive Use in Rural Kenya” (R21HD107270). Submitted 2/11/2021. Study section review May 2021. In this project we proposed to develop and pilot test an intervention in which community health workers would deliver social norms-based messages about modern contraceptive use to residents in the communities they serve in rural Kenya.

Co-Investigator. “Digital Media for Cancer Control: Randomized Controlled Trial and Dose Response Effects.” National Cancer Institute (R01CA253013-01).

09/17/2020 – 5/31/2025. \$3,134,520. This project seeks to advance the science of tobacco prevention messages delivered via digital media through a series of studies that evaluate objective measures of message exposure and link those to attitudinal and behavior endpoints.

Co-Investigator. “Reduction of Anemia through Normative Innovations.” Bill and Melinda Gates Foundation (OPP1182519).

01/01/19 – 12/31/22. \$4,011,654. The purpose of this project is develop and conduct an impact evaluation of a multilevel intervention to increase iron folic acid supplements among women of reproductive age in Odisha, India. My role in the project is focused primarily on the design of and analysis of data from the cluster randomized trial that will be used to measure the impact of the intervention. (PI: Rajiv Rimal)

Co-Investigator. “Digital Healthy Weight Intervention to Address Health Disparities in African American Mothers: BeFAB.” National Institute for Minority Health and Health Disparities, National Institutes of Health (R01MD015762-01).

Submitted February 2020. Co-PIs: Doug Evans and Melissa Napolitano.

Co-Investigator. “Living the Example Digital Media for Peer-to-Peer Prevention.” National Institute on Drug Abuse (R34DA050874-01).

Priority score: 39. PI: Doug Evans.

6) Grants Concluded

Co-Investigator. “Exploring Social Norms and Social Networks’ Effects on the Adoption of Modern Contraception in Rural Kenya.” Bill and Melinda Gates Foundation.

01/15/2017 – 11/30/2019. \$1,603,470. The purpose of this project is to examine how women’s adoption of modern contraception in Kilifi County, Kenya, is influenced by social norms and social networks. The project consists of a series of focus group discussions and key informant interviews, followed by a social network survey, in three villages in Kilifi County with low, medium, and high levels of modern contraceptive use.

Principle Investigator. “Social Norms and Behaviors Related to Child Survival in Ghana.” UNICEF, 43205450.

09/26/2016 – 11/27/2017. \$214,833. The objective of this contract is to carry out a series of focus group discussions and key informant interviews, followed by a survey, to answer questions about how social norms influence several behaviors, ranging from iron supplementation during pregnancy to health care seeking for a sick child, that influence child survival in high poverty districts in Ghana. Findings will inform UNICEF Ghana’s work promoting maternal and child health.

Principal Investigator. “Gendered Social Contexts of Adolescent HIV Risk Behavior: Family, Peer Group, and Community Influences in Southeastern Ghana.” USDHHS Eunice Kennedy Shriver National Institute for Child Health and Human Development, R01HD061017.

09/30/2009 – 07/31/2015. \$2,215,452. The objective of this grant is to carry out a longitudinal cohorts study (with ancillary qualitative studies) of youth and young adults in two towns in Ghana. Findings will shed light on sex-specific influences of families, peer groups, and other social factors on behaviors that place young people at risk for HIV and other reproductive health problems.

Principal Investigator. “Diversity Supplement to Gendered Social Contexts of Adolescent HIV Risk Behavior.” USDHHS Eunice Kennedy Shriver National Institute for Child Health and Human Development, 3R01HD061017-02S1. 03/01/2011 – 07/31/2012. \$58,312. The objective of this grant is to prepare Tiffany Gray for admission to and success in a doctoral program in public health by providing her with mentoring and hands-on experience with research.

Co-Investigator. “Developing Youth: Mentoring, Empowerment, Self-Expression, Achievement.” USDHHS Administration of Children, Youth, and Families, 90AT0009/01.

09/30/2011 – 09/29/2012. \$492,047 (Year 1 only). The objective of this grant is to develop, implement, and evaluate a comprehensive teenage pregnancy and sexually transmitted disease prevention program for youth living on the Zuni Indian Reservation in New Mexico. PI: Tom Faber, MD.

Co-Investigator. “Accomplishments of the Domestic Violence Hotline, On-line Connections, and Chat” USDHHS Administration for Children and Families, HSSP23320095635WC. 9/16/2014 – 9/15/2016. \$394,0780. The objectives of this project are to (a) characterize the performance of the National Domestic Violence Hotline and the National Dating Abuse Helpline using existing administrative and newly collected data and (b) make recommendations for additional performance indicators to be collected in the future. PI: Karen McDonnell.

Co-Investigator. “Prevention At Home: A Model for the Novel Use of Mobile Technologies and Integrated Care Systems to Improve HIV Prevention and Care while Lowering Cost. Center for Medicare and Medicaid Services. 9/1/2014 – 8/30/2017. \$23,808,617. The objective of this project is to create a unified model of care that integrates primary care with public health prevention to lessen the burden of HIV for the nation’s capital and decrease Medicaid Expenditures. PI: Freya Spielberg.

Co-Investigator. “What Works to Prevent Violence Against Women and Girls in Conflict and Humanitarian Crises.” UK DFID, PO 6256. The objective of this project is to identify the perceived drivers, causes, and risk factors for experiencing and perpetrating violence against women and girls in conflict settings in South Sudan. PI: Mary Ellsburg.
