## **15) Other/Creative Activities**

- Music: Founding member, lead guitarist, vocalist, instrumental backup and songwriter for the Furies, an all-original modern rock group that began performing in the mid-1990s. The Furies released two CDs – “Scratch” (1997) and “Real Time” (completed in 2003, released in 2006). “The Candle,” from the first CD, was on the soundtrack for a film (primarily shown on cable TV) called “Handgun,” starring Treat Williams and Seymour Cassell. Through an organization called Musicians Advocating Shared Solutions (MASS), the Furies also organized and performed in a number of benefit shows in which funds were directed to local community programs. Information and downloadable music at [www.furiesmusic.com](http://www.furiesmusic.com). New version of band is renamed the Black Shag Sherpas.
- Music: Organizer, lead guitarist/vocalist, single reed (sax), and songwriter with the Black Shag Sherpas, a new band that evolved from the Furies. In January 2012 the Sherpas recorded a 4-song EP, available for download from [www.blackshagsherpas.com](http://www.blackshagsherpas.com). Other new (non-studio) recordings are now posted on the website as well (“Basement Troika,” “Two More from the Basement,” “The Border”). Also see recently released “Carry the Load” YouTube (advocating for COVID prevention/vaccines).
- Patent holder: Alter Ego Internet search system. Patent No. 9898535, granted May, 2018. I developed this system and its algorithms, and pursued the patent application process from the beginning (including development of a rough demo site).
